Darien Communications, Inc.

Darien Internet Services

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The Commission found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement” and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”⁴

Darien Telephone Company, Inc. (“Darien”) hereby certifies that it is in compliance with applicable service quality standards and consumer protection rules. Darien is subject to consumer protection obligations under Georgia state law. These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of the Rules of the Georgia Public Service Commission which discloses rates, and terms and conditions of service to customers (Chapter 515-12-1-.02(5)(a) and .04(5) of the Rules of the Georgia Public Service Commission); (2) adherence to state consumer protection requirements governing telephone providers which require Service Standards (Chapter 515-12-1-.17 and .18 of the Rules of the Georgia Public Service Commission); Customer Billing (Chapter 515-

² *Id.* at para. 28.

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at n. 71.

12-1-.04(4) of the Rules of the Georgia Public Service; and Customer Complaints (Chapter 515-12-1-.08 of the Rules of the Georgia Public Service Commission); (3) truth-in-billing requirements (Chapter 515-12-1-.04(4) of the Rules of the Georgia Public Service Commission); and (4) CPNI, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

Darien Telephone Company, Inc. ("Darien") hereby certifies that it is able to function in emergency situations as set forth in 47 C.F.R. §54.202(a)(2)¹ and Chapter 515-12-1-.11(4) of the Rules of the Georgia Public Service Commission. Darien's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by 47 C.F.R. §54.202(a)(2) and Chapter 515-12-1-.11(4) of the Rules of the Georgia Public Service Commission. Darien can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow Darien to manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. Darien has battery backup at all office locations and in its electronic equipment sites. Length of run time is determined by the equipment serving the area and the number of customers working out of the equipment.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

GENERAL RULES AND REGULATIONS

4.2 ESTABLISHING SERVICE

4.2.1 Availability of Facilities

- A. The Company's obligation to furnish service is dependent on its ability to obtain and maintain suitable rights of way and facilities, without unreasonable expense, for the provision of such service.
- B. The rates and charges quoted in this Tariff provide for the furnishing of service and facilities where suitable facilities are available or when the construction of the necessary facilities does not involve excessive costs. Section 10 of this Tariff sets forth the regulations for determining charges when excessive costs are involved for the construction of facilities.
- C. The Company shall not be liable for failure to furnish service unless the purchase price and costs expended by the Company in acquiring such special or private rights of way by purchase or condemnation is paid or guaranteed to the Company by the customer. The rights of way referred to here are only those rights of way leading from the Company's distribution facilities to the premises of the customer.
- D. When service and facilities are provided in part by the Company and in part by other connecting companies the regulations of the Company apply to that portion of the service and facilities furnished by the Company.

4.2.2 Application for Service

- A. Applications for service or requests or orders by the customer for additional services or facilities may be made orally, or in writing when deemed necessary by the Company, and shall constitute a contract when accepted by authorized employees or agents of the Company, or upon establishment of service.
- B. An applicant may be required to make an advance payment at the time the application is accepted, in cases where a deposit is not collected. The amount of the payment will be based on applicable Service Connection Charges and the first month's charges for Exchange Service. The provisions of this paragraph affect the initial payment only and regular monthly charges for service as well as billing and collection practices discussed within this Tariff are otherwise applicable.
